

Winter returned with a vengeance during the weekend, complete with freezing rain, snow and ice, creating hazardous conditions following last week's three days of temperatures in the 40's and 50's.

Plunging temperatures resulted in a break in a two-inch water line on Amos street near Johnson road that disrupted service to homes in the area for six hours while repairs were made, according to water company officials. Repairs were made difficult by frozen ground, it was noted.

The water company said no major difficulties were reported although there were several instances of freezings of service lines affecting individual service lines. The company said service lines from the main to the meters, or from the meters to the houses, were the most vulnerable.

Temperatures plunged to a low of 4 degrees below zero yesterday and fell to a low of 7 degrees below zero today in the morning. The coldest yet, Sunday marked the 29th consecutive day the Quad-City area registered below zero, matching the 29-day record of Feb. 23 to March 23 in 1960.

Denies Pact on Mail Clerks Pay

News reports out of Washington that the United Federation of Postal Clerks has accepted an administration package deal on postal reform and pay have "misled millions of mail patrons," a spokesman for the area's organized postal clerks said in a statement today.

Ken Morton, president of Local 182 of the AFL-CIO union here, blamed the press generally for a "torrent of news stories that the postal unions have agreed to support a modified postal corporation in return for a hefty 11½ pay raise."

Morton said the reports are completely false and noted that "Our national union, despite two sessions with administration leaders in the White House at their invitation, has not agreed to anything—not to a package deal nor to terms of a proposed wage increase which has been exaggerated and misrepresented both in size and scope."

The proposed new postal authority, Morton said, "is similar to the old corporation scheme so far as we can see. It doesn't smell any sweeter to us by calling it a rose."

Morton also cited a statement by the federation's national president, Francis Filbey, denying that any other postal union can speak for the AFL-CIO postal clerk's union, or that the union ever will be party to any package deal "until and unless the union's leadership sees actual legislation which will fully protect the best interests both of the clerks and the mailing public."

State Income Tax Can be Deducted from U.S. Return

IRS offices are receiving inquiries as to the deductibility of the Illinois state income tax on the federal return, according to Ray G. Philpott, district director for central and southern Illinois.

Philpott explained, "A cash basis taxpayer who itemizes his deductions may deduct on his 1969 federal income tax return the Illinois state income tax withheld from his salary in 1969 and any amounts paid by him as estimated tax during 1969. Payments made during 1970, including any 'balance due' payment made with the 1969 return, are deductible on next year's return."

He cautioned, "If a taxpayer deducts the total amount of state tax he paid in 1969 and later receives a refund from the state, he must include the refund as income on his 1970 federal income tax return."

Representatives from both departments of Public Aid and Public Health will attend. Hospital therapists will have displays and resource material for possible ambulatory and bed-ridden patient programs.

Simpson Sparks LSU with 35.3 Game Average

Gary Simpson, Granite City's gift to Louisiana State University basketball, is producing 35.3 points per game, an LSU freshman scoring record average second only to the all-time fresh record of 43.6 set by All-American Pistol Pete Maravich.

The poorest night's scoring for Simpson was 22 points and his best was during the Tigers' most recent game with Angelina College, when the native Granite Cityan scored 45 points.

In other statistical categories, a .528 field goal percentage and an 87.7 free throw accuracy for Simpson, both lead the Bengal squad. In addition, he is credited with 48 of the team's total 119 assists.

The youngest Tigers' team has averaged 90.5 points per game while shooting 467 from the field in gathering a 5-3 game log.

Bill Whittle, of Indianapolis, Ind., is the fresh's leading rebounder averaging 20.8 retrieves and is the No. 2 scorer with a 21.5 average.

HARMON'S SOPHS JELL
Sophomore Warriors have levitated their record to 8-2 despite problems earlier in the season of often playing catch-up ball.

The problem, more drastic earlier this season, showed up again Thursday at East St. Louis. The Flyers took a 9-5 first-quarter lead and the Warriors' defense backed for a 50-43 win.

Coach Dick Harmon explains that the slow starts were caused by the players' lack of experience.

They are maturing, and have defeated the previously unbeaten Bethalto sophomore squad 62-51.

"They were depending on Chuck Kraus, Joe Wallace and Terry Ripe. Now the team has jelled," Wallace and Ripka graduated to the junior varsity team; Kraus broke an arm but may return late in the season.

Kevin Dyer leads the squad in scoring with 20 points, averaging 20 tallies per game. Bob Wiggins is the second strongest in both departments.

The GCHS system of training players involved a rather strict progression of the players from the sophomore squad to the varsity team. The Warriors sophs have been roundly defeated only once, when playing Collinsville.

ENNIS' PRIZE PONIES. Edward Ennis (top) drives his championship roadster pony "Tasha Ling" and his daughter, Jeri Lynn (below) puts the championship fine harness pony "Captain Thomas" through his paces.

2 High Awards to Be Given Ennis' Ponies

Two reserve grand championships for ponies will be awarded to Edward "Saggy" Ennis, Roadster Two, by the Missouri Horse Show Association Jan. 24 at Jefferson City, Mo.

The Missouri association, which includes members from Illinois, Indiana, Kansas and Iowa, will grant to Ennis the all-classes reserve titles to his ponies, "Tasha-Ling" in the

roadster division and "Captain Thomas" in the fine harness division.

Edward Ennis's daughter, 16, a sophomore at GCHS, will receive amateur ladies' reserve championship recognition for driving "Captain Thomas."

In 1969, Captain Thomas was the reserve fine harness pony of all the U.S.

A past grand champion pony in 1964, '65 and '66, "Visitors High Checkers," is still winning awards.

Last year "Visitors" was undefeated in shows for cart fine harness ponies.

The Ennis family ponies have totaled 118 trophies and about 500 ribbons, of which about half are blue.

6603 Violations of Game, Boating Laws

A total of 6603 persons were arrested for infractions of game, fish or boating regulations last year. Violators paid \$140,468 in fines in 1969, Illinois Department of Conservation records show.

Hunting without a valid license and having an unlicensed gun in an automobile were the most common game violations, Rebuffon said.

More anglers were arrested for fishing without a license and for fishing on private waters without permission of the owner than for other reasons.

Operating a boat without a valid registration and failure to have the proper safety equipment on board were the most common boating violations.

Rebuffon said.

Taverns Complain of Campaign Soliciting

Complaints from some tavern owners that they are being solicited for campaign funds to support Democratic candidates for sheriff have been reported by Marshall Smith, assistant state's attorney.

Smith said the tavern operators were upset that they were being solicited for campaign funds in unincorporated areas of the county would be ignored.

The candidates, John Maeras, current county treasurer, and his opponent, James Estes, Chouteau township highway commissioner, have denied using such tactics.

Sheriff George Musso, a Democratic candidate for county treasurer, also denied Smith's accusations, calling them political.

Smith said the complaints would be investigated, and Musso said the tavern closing would be strictly enforced.

IRS Advises—Check, Rethink Tax Forms

"Before sending in your 1969 Federal income tax return, check it over to see you've left nothing out," Jay G. Philpott, district director of Internal Revenue for central and southern Illinois, said today.

Taxpayers who do this often find income or deductions they have omitted or errors in arithmetic, he said.

Other things to check are whether the pre-addressed label is attached to the return, all W-2 forms are attached to the back of the return, the social security numbers are correct and the return is signed. Then mail the return to the Internal Revenue Service Center, Kansas City, Mo., 64120.

"This review is time well spent as it may prevent delays in processing the return and speed up any refund due," Philpott said.

Passenger Fare Hike

Ok'd for 7 Railroads

Seven railroads operating in Illinois were given permission to boost passenger fares by 10% under an order issued last week at Springfield by the Illinois Commerce Commission, with the increase to begin immediately.

The railroads include the Norfolk & Western, Gulf, Mobile & Ohio, Illinois Central, Chicago & Northwestern, Chicago, Burlington & Quincy, Chicago, Milwaukee, St. Paul & Pacific and the Chicago, Rock Island & Pacific.

\$25,000 Accident Suit

Suit for \$25,000 was filed last week for Mary Frances Robertson against Lester L. Etheridge in Madison county circuit court as the result of injuries sustained when she was struck by an auto driven by Etheridge while she was walking across Madison avenue at 29th street on April 29, 1968.

Negligence was charged.

Schafer Will Head Scott's Downstate Consumer Office

Attorney General William J. Scott announced today that he is stepping up the efforts of his statewide Consumer Protection Division and, at the same time, named a former two-term state's attorney as the new chief of the downstate consumer offices.

He is George M. Schafer, 40, a former resident of Mt. Carmel and twice the state's attorney of Wabash county (1956-61). Accepting the new assignment, Schafer has moved to Springfield with his wife, Betty, and daughter, Suzanne.

Scott said that Schafer will be in charge of the division's expanding activities in the 90 counties outside the metropolitan Chicago area. The downstate division's headquarters is located in Springfield at 301 East Monroe street.

Help for Defrauded

Noting Schafer's experience, Scott said he "has exceptional training and credentials for dealing with the problems of defrauded or deceived consumers."

Deadline Feb. 2 for Employer Tax Report

Employers have an important tax deadline Monday Feb. 2, 1970.

This is the last day for reporting Social Security and withholding income taxes for the calendar quarter ended Dec. 31, 1969, according to Jay G. Philpott, district director of Internal Revenue for central and southern Illinois.

Employers who received a pre-addressed Form 941, "Employer's Quarterly Federal Tax Return," should use this form to report their tax liability.

If the balance due on the return is over \$100, it should be deposited in an approved commercial bank or Federal Reserve Bank, using Federal Tax Deposit Form 501.

Feb. 2 is also the last day for reporting and paying Federal Unemployment Tax for 1969. Employers liable for this tax should file Form 940.

"Circular E—Employer's Tax Guide," Publication 15, furnishes detailed information on these taxes. It may be obtained free by dropping a post card to the Forms Distributor, P. O. Box 1468, Springfield, Ill. 62705.

Feed Grain Program For 1970 Announced

Lee Rogers, county executive director of the Madison county ASCS office, stated today the basic provisions of the 1970 feed grain program will be the same as for 1969, except that advance feed grain payments are not authorized and the additional diversion payment rate will be based on 40% of the total county price support rate instead of 45% as in 1969.

Sign-up will be conducted simultaneously for feed grains and wheat beginning Feb. 2 and continuing through March 20.

Corn, grain sorghum and barley are the three feed grains for program purposes. Price support rates remain the same as 1969, Rogers said.

Substitution will be in effect between wheat and feed grain programs. Farms with 25-acre base or less can take advantage of the small farm provision as in 1969 and those farms with a base of over 125 acres can temporarily reduce their base to 25 acres and comply as in past years.

Soybeans planted in lieu of feed grains will not earn price support payment. Rogers said that no photography will be in effect for 1970 and this will affect in any conserving acre bases. He urged every farmer to ask about this conserving base at time of sign-up.

Rogers also announced that measurement service will again be available at a nominal cost. He urged producers to take advantage of this service and be guaranteed of exact acreage as well as saving money by not diverting unnecessary acreage or wasting seed and fertilizer.

Also, incorrect certification of acreage by the producer could not only result in loss of payment but, a very heavy fine plus imprisonment.

MORE ABOUT

SIU Board

The St. Louis Symphony Orchestra and director of last summer's festival, told the board that the sponsor corporation now has about \$150,000 in pledges and that there are several possible donors who were awaiting the outcome of Saturday's SIU board meeting.

The switch in board votes that resulted in approval of the festival program, from Melvin Lockard, Matton, secretary of the SIU board, and Ivan Elliott, Carmel. Approval had been rejected in the December meeting by a vote of 5 to 2. Lockard, asked about his vote, said, "I do not have to explain my vote. That is a privilege of being appointed by the governor."

Fischer's motion that SIU support the festival was given a second by F. Guy Hitt, Benton. Voting yes on the resolution were Lockard, Fischer, Hitt and Elliott. Opposing it were Lindell W. Sturges, Jr., Memphis, board chairman, Dr. Martin Van Brown of Carbondale and Eugene T. Simonds, also of Carbondale.

Had Deficit Last Year

Mississippi River Festival, Inc. will make the contracts for appearance at the festival this summer, and with the St. Louis Symphony. Pastreich said. Last summer the Festival was conducted by SIU SW and by the St. Louis Symphony Orchestra. While it was described as an artistic and cultural success, it was a financial failure, piling up a \$150,000 deficit. SIU SW paid off \$100,000 of the deficit and the St. Louis Symphony paid the remaining \$50,000. That deficit was believed to be the principal reason for the SIU board's original rejection of the program's renewal.

Pastreich said the festival corporation expects to start this year's festival near the end of June and continue it through August. An exact format has not been determined, but it is expected to follow last year's pattern of blending symphony concerts and a popular artists. Like last year's festival, this year's program will be conducted in the bluffs northeast of the main Southwestern campus. The performers and some spectators will be inside a tent while other seating will be available on the surrounding hillside.

The festival issue took on controversial proportions following the Dec. 13 meeting of the SIU board in Carbondale when festival proponents pointed out that in the same meeting in which the board rejected approval of the festival program, it approved a large sum of money to build a 27-hole golf course on the Carbondale campus.

Governor Endorsed Festival

Last week, Gov. Ogilvie said that he favored the festival and that he thought it should be continued if possible. The board Saturday also agreed to a motion by Lockard to retain the firm of Cresap, McCormick & Paquet of Chicago to make an administrative study of SIU at a cost which Lockard estimated will be about \$30,000. He said the survey will take from three to four months and the firm will make interim progress reports as the study is developed.

Lockard is chairman of a special committee appointed last fall when the SIU board and administration was criticized over construction of a \$750,000 home and guest house for SIU President Deloye Morris on the Carbondale campus without clearing the project with the Higher Board of Education. At that time the board approved the hiring of an SIU director, a move interpreted as cutting some of Morris' authority, but it later held up action pending an "administrative survey" to determine what pattern any directive changes should follow. A recommendation by Dr. Morris for employment of the architectural and engineering firm of Smith, Hinchman & Grylls to handle the programming, master planning and complete architectural services for development of facilities for the School of Dental Medicine at Southwestern campus was tabled. Board members said they wanted to check into how the firm was selected.

Morris said the firm also would handle professional services in remodeling facilities at the Alton campus, also for the School of Dental Medicine. A resolution ratifying an SIU

Bottle Smashes Window

In Plant Workers Bus

A bottle was hurled through the window of a bus transporting workers of the Phelps Dodge Co. (formerly Deere) from the plant about 3:10 p.m. Friday as the bus passed a tavern on Douglas street.

The workers, one of whom suffered minor cuts when the soda bottle went through the window, said youths were standing in front of the tavern and ran after the bottle was hurled.

Venice police searched the area, but were unable to find anyone. Later Friday, youths picked the gate at the plant and made threatening comments to a guard. They fled when the guard telephoned police.

SW application for a Federal debt service subsidy grant of \$5 million, plus a \$100,000, and \$500,000 for equipment for a single student housing project, Southwestern campus, was approved by the board during its morning session.

Administration officials expressed their appreciation to the Department of Housing and Urban Development, which has agreed to fund the project in excess of 3% had requested the resolution as part of final application requirements.

A ten-year plan for upgrading the utilities system at the Carbondale campus at an estimated cost of more than \$17 million was presented to the board, and was given conditional approval, subject to further examination of plans and detailed proposals. The study was prepared by the Greater St. Louis and Associates of Chicago for development of steam, chilled water and electrical systems to service anticipated new buildings. SIU uses steam both for heating and air conditioning.

The board voted an increase in room and board rates at university-operated residence halls on the Carbondale campus, to become effective with this year's fall quarter. Room and board at the 17-story towers and at Thompson Point halls will increase \$20 per quarter to \$847 according to the new schedule. There will be a \$10 per quarter increase to \$112 at the University Park triad halls, and a \$10 increase at the vocational-Technical institute dormitory.

The board said the rising costs of goods and services are responsible for the increases. The new residence halls were built with revenue bonds to be retired from fees and charges.

Police Training Plan

The SIU trustees also approved a resolution which would enable University security police officers to participate in training under the Illinois Local Law Enforcement Officers Training Board. Recruits to the campus police forces at both Carbondale and Southwestern and at Carbondale would have to complete successfully the required training course within six months following employment to be certified for regular employment. A plan presented by Yale University Architect Charles W. Moore for architectural revision of the "Old Main" area of the Carbondale campus, leased for the center ruins of the Old Main building, was outlined to the board and demonstrated by maps and a scale model, but the board deferred action on acceptance with a suggestion that other plans also be brought in.

Moore's plan calls for retaining a two-floor shell of the old burned building, reconstruction of the tower to its original height, surrounded with buildings and outdoor exhibit and performance areas for fine arts programs and the SIU museum. The board also approved a change in the name and focus of the "Small Business Institute" on the Southwestern campus. The unit now will be known as the "Business Institute." Its focus at the Southwestern campus will be directed to urban business needs with concentration on programs for the mature executive who has acquired policy management responsibilities or who is moving into such responsibilities, programs to meet special needs of the line managers and staff at middle and upper levels of organization and development of special programs to meet particular management problems of a specific industry.

A change in the title of the nursing program from the Department of Nursing to the Division of Nursing was approved. Nursing will continue with the present administrative structure and programs and the action constitutes a change in name only, it was pointed out.

In association with youth groups, Presley served as a "Big Brother" and Rules Committee member for the Illinois Youth Commission; Little League manager; and instructed leadership and motivation in YMCA programs for student council members.

He has been active in more than 100 Jaycee projects, including the Jaycees' annual Christmas shopping trips for indigent children. Other associations include the Greater St. Louis Park and School Boards, Moose Lodge, and United Fund auditor and campaign leader.

In presenting the OYE Award, Madison County Supt. of Schools Wilbur R. L. Trimpe said, "No field of endeavor is more rewarding than helping a boy or girl along life's path."

"A teacher is required to be a devoted person. He must have a deep understanding of their problems, with a feeling of real concern. His own desires and disappointments must be kept in the background."

The county school superintendent noted that in addition to earning his master's degree, the OYE winner constantly adds to his academic achievements by being a member of the Granite City high school student council and by volunteering his professional services to young patients at the Salvation Army's hospital.

Comments by Simon

A charter member of the Troy Jaycee chapter, the Illinois lieutenant governor voiced his support of the objectives outlined in the Jaycee Creed. "In visiting college campuses about once each week, I find youth is questioning everything that you and I believe. We are going to have to do better in responding to their questions."

Li-Gov. Simon noted that an additional 58,000 children entered Illinois public schools this year, including \$1,000 from non-public schools, many from schools forced to close.

"Next fall we can expect at least 70,000 additional students unless we provide some token form of assistance to non-public schools. In many inner city areas, the only quality education available is at non-public schools... others are not meeting minimum state standards which could be corrected if state aid is provided."

Ed Gowna, principal of McKinley school, served as master of ceremonies and the invocation was given by State Director Bill McAmish of Granite City. Carl E. Mathias, Illinois Power Company executive, and Dr. E. W. Walton, president of Granite City League, both of whom served on the awards selection committee, were introduced.

Others seated at the speaker's table were Mrs. Simon, Mrs. Partney, Dave Moser, local Jaycee vice-president, and Mrs. Moser; Mrs. Schindewolf, Mrs. Barnett; Richard Dawdy, Jaycee board chairman and Mrs. Dawdy; and banquet chairman, Carl Bernasco and Mrs. Bernasco.

Venice Man Shot

Fatally; Murder Suspect Charged

A heated and lengthy argument over when the Negro received voting privileges ended early Friday morning with the fatal shooting in Madison of Lemmon Smith, 29, of 328 Weaver street, Venice, and the arrest of a short time later of another Venice man who was charged with Smith's murder.

Madison Chief of Police Frank Dutko said his department is holding Billy Ray Hatten, 25, of 619 Salvester street, Venice, without bond, on a murder warrant issued a few hours after Smith died in the emergency room of St. Elizabeth Hospital about 12:50 a.m. Smith was shot once in the upper chest.

Police said the shooting occurred in an apartment at 317 West Second street, West Madison, culminating an argument between Smith and Hatten that started Thursday night while they were drinking at Garrett's tavern in Venice.

A .22 caliber revolver, which Smith had carried and which police said apparently had been fired twice was recovered from the apartment.

Police Seek Gun

A gun of larger caliber, believed to be a .32, still was being sought by police officers after Hatten told them he had "pitched it" along some railroad tracks.

Acting on a call to police headquarters, Patrolman Leonard Bland of Madison went to the

apartment about 12:30 a.m. Friday and reported he was admitted by Gerald Massie, who occupies the room. Bland said he saw Smith sitting up in bed, bleeding from a chest wound, leaning against the closet door. Massie told Officer Bland that Smith had been shot, the officer reported.

Bland said that with the help of two other men, he got Smith into the police car over Smith's protests that he did not want to go to the hospital. Patrolman Bland said Smith kept telling him that he was "all right."

The officer drove Smith to the St. Elizabeth Hospital emergency room. Smith said he was conscious and protesting that he did not need treatment, the officer reported. Bland said he and another man started to help Smith into a wheel chair and that Smith became obviously weaker.

Smith was hurried into the emergency room, and placed on an operating table. He was pronounced dead within several minutes, Bland reported.

Hatten Arrested

While Officer Bland still was at the hospital, Hatten appeared at the emergency room. He asked Bland about Smith's condition and was informed that Smith was dead. Hatten was placed in custody.

Hatten made a voluntary statement to police officers. Chief Dutko, an assistant state's attorney, a deputy coroner and other officials. Magistrate Matosian arraigned Hatten later Friday morning, issued a murder warrant and stipulated Hatten be held with out bond. Hatten was trans-

ferred to the Madison county jail at Edwardsville.

Chief Dutko said that according to Hatten's story, he and Smith became involved in an argument at Garrett's tavern Thursday night over the question of voting rights were conferred on Negroes. The argument became bitter and the two men became involved in a fist fight, Dutko said.

Dutko said Hatten related that he went to his home and got a gun and returned to the tavern. Smith also returned later and Hatten made Smith go with him to Massie's apartment.

Dutko said. As they entered the apartment, the police chief said, Smith struck Hatten across the face with a gun.

"That is when the shooting started," Chief Dutko said. Police found two bullet holes in the wall of the kitchen and two in the living room. Smith's gun, which was recovered had one live shell and two discharged shells, police reported.

Open House Mar. 1 to Show Parochial Schools' Caliber

Monsignor John L. McGrath, diocesan coordinator of the "Time for Action" program of the Illinois Catholic Conference, this week called upon all Catholic schools of the Springfield diocese to join a statewide "Open House Sunday," a project scheduled for Sunday, March 1, between 1 and 4 p.m.

On that day, nonpublic schools throughout Illinois will be open for inspection by the general public. In many areas, "official" school days are planned for March 1 in order that visitors may observe how the normal school day is conducted in a nonpublic school.

The project is a part of "Time for Action," initiated by the Illinois Catholic Conference to inform every citizen of the quality and value of nonpublic education and to mobilize support for legislation that would provide financial aid to Illinois nonpublic schools.

Serve 448,000 of 2,700,000 Of 2,700,000 elementary and secondary school students in Illinois, 448,000—or one out of every six—attend nonpublic schools or schools which are not maintained by public funds. About 90% of these are in Catholic schools.

Others are enrolled in Lutheran, Christian Reform, Seventh Day Adventist or nonsectarian schools. These other nonpublic schools also will participate in "Open House Sunday," Msgr. McGrath said.

"The emphasis will be on common subjects or those which are taught in both nonpublic and public schools. Regular classes will be conducted in such subjects as civics, English, American history, mathematics and so on.

"Visitors will have the opportunity of evaluating for themselves both the quality and the quantity of the education rendered in a nonpublic school."

The plan most often discussed for providing public funds to nonpublic schools involves purchase by the state of educational services and materials employed in the teaching of these common or secular subjects.

Measures such as this have been enacted into law in Pennsylvania, Ohio, Rhode Island and Connecticut. In Pennsylvania, a three-judge federal panel has ruled the resulting law constitutional and in the public interest.

"Needless to say," Msgr. McGrath commented, "we look to the Illinois General Assembly to enact some legislation when it reconvenes this April."

"But our goals in joining in 'Open House Sunday' go far beyond this. We want to give every citizen of Illinois the opportunity to see the service that nonpublic schools provide to the entire community."

"We want them to see schools that students and their parents care enough about to give up what would normally be a non-school day."

"These parents are willing to maintain the efforts they are now making to keep their schools going," Msgr. McGrath said, "and increasing costs are fast making this financially impossible. The nonpublic school sector, in its effort to maintain itself, is looking for something to prevent its collapse."

"And we believe that that something is financial assistance from the state."

Still Not Enough

GC Finances Aided by \$90,000 Federal Funds, \$50,000 Taxes

Granite City is \$161,562 richer today than it was last week, but at least another \$300,000 is needed to see the city through next July when new tax money will be received.

In Friday morning's mail to Mayor Partney, included the check for \$90,000 from the federal government, paid under the Civil Defense disaster program for last summer's flood damage to sewers, and City Treasurer E. R. "Pat" Rich received \$30,000 as partial payment from County Treasurer John Maeras of the final settlement of 1968 taxes. Another \$10,000 in taxes is expected in March.

The city also received Thursday's allocation of \$21,000 as its share of the state income tax.

During a special council meeting on finances last Monday,

Mayor Partney said at least \$500,000 added income is needed to meet city operational costs through next July, when new tax money is expected.

Unless that amount is found, he plans layoffs, transfers and shortened work week involving 34 employees.

Council members, during the special session, instructed Treasurer Rich to confer with bank officials on tax anticipation warrants to borrow the needed funds to last at least through April 30, the end of the city's fiscal year.

Not Yet Available
However, that information will not be available for tonight's regular council meeting. Rich has arranged a meeting in his office for 7:30 p.m. tomorrow for bank officials and city officers and the council's Finance committee.

That means there will be only one regular council session remaining, Jan. 26, before the mayor's deadline date of Feb. 1 for the layoffs.

Rich did say it was unlikely the city would be able to borrow money at 5% interest. "I was told there just isn't any money available," the treasurer added.

Mayor Partney, who said last Monday that he would veto any council resolution for issuance of tax anticipation warrants, told the Press-Record Friday that he is hopeful added federal funds will be made available in a short time under the federal disaster program in which the city has been promised \$700,000.

He added that the \$90,000 received Friday will be placed in a special account to be transferred as quickly as possible to the city's general funds, for which sewer break repair bills are being paid.

Supplemental Application
"An audit is to be made by federal auditors so a supplemental application for funds can be made to cover the last sewer break on Fehling road," the mayor added. The repair cost is expected to be \$12,000 to \$14,000.

Rich said the added funds will more than cover a full payroll for February, estimated at \$106,000, and that the city's sales tax revenue for October is due this month, estimated at \$41,000.

The city treasurer pointed out that all of the \$50,000 tax payment received from the county will not go to the city's general fund. It must be shared with the public library and the

police and firemen's pension funds.

The public library fund, for which there is a special tax rate, will receive \$4470; the police pension fund, \$1680; and the firemen's pension fund, \$2285, leaving a balance of \$41,565 to be distributed to the general fund accounts.

The treasurer pointed out that \$32,000 being paid to the city by Granite City Steel Co. for the added cost of siphons for the city storm water lines where they intersect the steel firm's water line in the 24th street parkway will not be available for the general fund.

He explained it will go into the sewer construction fund from which amounts remain due to the contractor, S. M. Wilson & Co., the engineer, H. W. Lochner & Co., and the bond attorney, Horace Calvo.

C. E. 'Pappy' Parrish, 59, DOA at Hospital

Clifton E. "Pappy" Parrish, 59, of Boy 32, Bend road, was pronounced dead upon arrival at St. Elizabeth Hospital at 2:30 p.m. Thursday, after suffering a cerebral hemorrhage at home. He had been in poor health since March, but was stricken seriously ill suddenly at home and was taken by ambulance to the local hospital.

A native of Hopkins county, Ky., Mr. Parrish, known to his friends as "Pappy," was an active member of the Horseshoe Lake Rod and Gun Club. He had resided in the Bend road area since 1953, having moved here from Corning, Ark.

Mr. Parrish was employed as a glass adjuster at Fischer Body Co., St. Louis, where he was a member of the United Auto Workers of America, Local 35. He also was a member of the Baptist faith.

Survivors include his wife, Mrs. Mayme Parrish; one son, James Parrish of Fellows, Calif.; three daughters, Mrs. Marie Holcomb of Fellows, Mrs. Louise Moore of Belleville and Mrs. Kathryn Crawley of Campbell, Mo.; two stepsons, William Luber of St. Louis and Jerry Fricker of Elizabethtown, Ill.; three brothers, Robert Parrish of Olive Branch, Ill., Charlie Parrish of St. Francis, Ark., and Hiram Parrish of Nay-tah Oliver of Moorhouse, Mo.; 18 grandchildren and several nephews and nieces.

Funeral services were held at 1 p.m. today. Details are given in the obituary column.
